POKING INTO THE DARK SECRET WHY DOESN'T SHE GO UP?"

If You Want to See Her Boom, Says the Latest Goodwin Literature, Pay for Your Stock -Not That It Makes Any Difference About the Gold in the Mine.

One of the greatest little uplift move that have been organized here reently is now under way. No one denies hat one of the leading uplifters is that well known philanthropist and humanierian of Reno, the Bialto and the one ight stands Nat C. Goodwin, acting brough his confidential agent and chief cutenant, George Graham Rice, the derzog of other days.

The fruit of the movement thus far is he boosting of the price of Rawhide Coalition stock, controlled by the Goodin-Rice outfit, from 48 cents, where it has been resting peacefully for a month or so in spite of the blackface page of ads Nat C. Goodwin and others, to 62, where stock has closed for the last few days much of the uplift is due to the noble efforts of B. H. Scheftels & Co. of Broad reet and Chicago is known only to borge Graham Rice, the campaign genal, and those in his confidence.

Not so long ago when Gen. Rice was archalling his workers in an effort to dt chough sand on the Rawhide toboggan o stop the slide he was buying up great sentitles of space for advertisements seer the name of Nat C. Goodwin and cas saying all the kind things he could for the Goodwin mining properties. Rice ared at the time that he could say a lot some if it weren't for the fact that he had some informed the post office inspectors At that time THE SUN presented some ling matter to the cause, telling someing of the career of Mr. Rice and his matters with the actor as told by Mr. ations with the actor as told by Mr.

It seemed wise to the campaign manageto put the soft pedal on the Nat C. great popular philanthropic movement son as Mr. Rice was directing on behalf the investors in Rawhide stock had to u.e., Why not have B. H. Scheftels & while they are saying nice things out the hidden gold under the Nevada

while they are saying nice things to the hidden gold under the Nevada the time comes? The suggestion was red out, and up to now B. H. Scheftels b. have appeared daily as the most that advertisers of Rawhide to be this side of Reno.

3. Scheftels & Co. not only devoted afforts to the advertising pages they have been doing a little quiet thing to find out why a stock stays of cents when it is worth at least and maybe \$5 a share. The results the gumshoeing have just been made the by the concern, and since it is likely that some of the Rawhide shareholders not read the Scheftels weekly market the stays of the results some of the Rawhide shareholders not read the Scheftels weekly market that some other valuable stocks are getting the ame underground treatment, and the information will be of interest to investors in general. Scheftels & Co. s.

Scheftels & Co. say they got their first them if they would accept 1,000 shares of his Rawhide stock as security for a loan his enough to buy 1,000 shares more. The firm gladly consented to make the lean on Rawhide security at 6 per cent. Then the client wrote that the brokerage house that bought his first 1,000 had concented to make the loan itself. A few damplater Scheftels & Co. say they bought block of stock on the curb for some one and among the certificates they got it was one made out in the name of recorrespondent.

The explanation is that the firm of New York brokers bucketed the order for 1,000 chares, robbing the market of the stimulate of that purchase, and then bucketed the collateral, selling it in the open market to the hurt of the owner." explain Scheftels & Co. "In this way the market not only falled to receive the stimulus of the purchase of 1,000 shares but was weakened. chase of 1,000 shares but was weakened by the sale of 1,000 shares. If this opera-tion was performed only 100 times it would make a difference in the market of 200,000

make a difference in the market of 200,000 shares, which would be sufficient to lift the price of Rawhide Coalition to \$1/50, or triple its market value."

Scheftels & Co. say they are satisfied from inquiry that the brokerage house in question is short 50,000 shares of Rawhide and was interested in depressing the market. The sleuths have learned further that this practice is not at all uncommon and that in the neighborhood of 300,000 shares of Rawhide Coalition that hive been hypothecated as collateral and these 300,000 shares additional that have been sold on margin have never been purificated at all.

In other words," say the sleuths,

"In other words," say the sleuths, "there is a short interest of 600,000 shares of Rawhide Coalition, and if every man who thinks he is a stockholder of Rawhide Coalition will demand immediate delivery of the certificates he has purchased, paying of course the money has borrowed money on Rawhide Coalition will pay up the loan, the bulge which Rawhide Coalition would experience on the New York curb would knock into

which Rawhide Coalition would experience on the New York curb would knock into a cocked hat the record of any mining stock in the history of Wall Street."

This concern announces that it has the concern announces that it has the concern announces that it has the condition and it is the "one best speculative purchase on the whole American rollning shares list," and furthermore, we are the only brokerage house outside of Nat. C. Goodwin & Co. of Renoths has a selfish reason for protecting the market in this security." They say that "Mr. Nat. C. Goodwin, the man who is responsible for the introduction of the market in the security." They say that "Mr. Nat. C. Goodwin, the man who is responsible for the introduction of the former and vice-president of the state; and if we cannot be trusted to protect your interests, who can?"

"After a long absence the spacious state. Goodwin "ad" has just appeared again with the announcement that "Rawhide Coalition will pay divisions to your grandchildren." It casually mentions a telegram received from the B. H. Scheftels & Co. indorse Nat. Goodwin's views and advise everytody to "look out for a fifty point move

G. Goodwin's views and advise everybody to "look out for a fifty point move
is a day on mine showings."
In the meantime George Graham Rice
on the job with a fresh lot of sand,
and if the bucket brigade of Wall Street
try to pull off any of their old tricks B.
Scheffels & Co. will put their sleuths
on the trail again.
